

Case Reports and Case Series in Cardiology Journal (CRCSCJ) welcomes submissions from cardiologists, cardiovascular surgeons, clinicians, researchers, healthcare professionals, and medical academics worldwide. As an international, peer-reviewed, open-access journal, CRCSCJ aims to facilitate the dissemination of clinically significant observations, unusual cardiovascular presentations, diagnostic findings, and advances in cardiovascular treatment.

Our journal provides a dedicated platform for sharing valuable clinical experiences that can contribute to medical education, scientific discussion, and a better understanding of cardiovascular diseases. We encourage authors to submit manuscripts that present a clear clinical message, appropriate supporting evidence, and educational value for the cardiovascular community.

Why Submit Your Manuscript to CRCSCJ?

Dedicated Cardiovascular Publishing Platform

CRCSCJ focuses on cardiovascular medicine and related clinical specialties. Authors can share rare cardiac conditions, complex clinical cases, unusual complications, innovative diagnostic approaches, and relevant treatment experiences with readers interested in cardiology and cardiovascular care.

Open-Access Publication

Our open-access publishing model aims to make published articles available to readers without subscription barriers. This approach supports the dissemination of clinical knowledge among healthcare professionals, researchers, medical students, and academic institutions.

Peer Review and Editorial Assessment

Submitted manuscripts undergo editorial assessment and the applicable peer-review process. Reviewers and editors evaluate the manuscript's scientific relevance, originality, clinical significance, presentation, and compliance with ethical requirements. Authors may be asked to revise their manuscripts in response to editorial and reviewer feedback.

Editorial Communication and Author Support

Our editorial office assists authors with submission-related queries, technical requirements, revision instructions, and manuscript status updates. We aim to maintain clear communication throughout the editorial process and help authors understand the steps required for their submissions.

International Academic Collaboration

CRCSCJ welcomes contributions from authors across countries and clinical settings. We aim to strengthen international participation, encourage academic exchange, and develop relationships with cardiologists, cardiovascular surgeons, researchers, and healthcare professionals.

Scope of Manuscript Submission

CRCSCJ considers clinically relevant submissions across a broad range of cardiovascular specialties, including:

Cardiology Case Reports and Case Series: Rare cardiac diseases, unusual clinical presentations, diagnostic challenges, complex patient management, and clinically informative case series.

Cardiovascular Surgery: Cardiac surgical procedures, postoperative complications, surgical outcomes, and unusual findings associated with cardiovascular interventions.

Interventional Cardiology: Coronary angioplasty, percutaneous coronary intervention (PCI), stent implantation, structural heart procedures, and associated complications.

Cardiac Imaging and Clinical Images: Echocardiography, cardiac magnetic resonance imaging (MRI), computed tomography (CT), coronary angiography, and other clinically significant cardiovascular imaging findings.

Cardiovascular Diseases: Coronary artery disease, myocardial infarction, cardiomyopathy, heart failure, cardiac arrhythmias, congenital heart disease, and valvular heart disorders.

Vascular Medicine: Peripheral arterial disease, aortic disorders, vascular inflammation, and other conditions affecting the circulatory system.

Cardiovascular Devices and Technologies: Pacemakers, leadless pacemakers, implantable cardioverter-defibrillators, ventricular assist devices, and other cardiovascular technologies.

Clinical Videos and Procedural Demonstrations: Educational videos of cardiovascular procedures, imaging findings, and clinically relevant techniques, subject to appropriate permissions and editorial approval.

All submissions must be relevant to the journal's scope and satisfy the applicable scientific, ethical, and editorial requirements.

Article Types Accepted

Authors are invited to consult the journal's instructions for authors and submit work in the categories supported by its current editorial policies:

- Case Reports
- Case Series
- Clinical Images and Image Articles
- Cardiovascular Imaging-Based Case Presentations
- Video Articles
- Other relevant article categories where permitted by the journal

Each submission is evaluated on its individual merits. Submission does not guarantee acceptance or publication.

Manuscript Submission Guidelines

To support an efficient editorial assessment, authors should ensure that their manuscripts are complete and prepared according to the journal's instructions.

Before submission, please:

1. Confirm that the manuscript falls within the journal's scope.
2. Prepare the manuscript according to the prescribed formatting and reporting requirements.
3. Include appropriate references, figures, tables, and supplementary materials where relevant.
4. Obtain patient consent for publication of identifiable clinical information, photographs, or videos where required.
5. Ensure compliance with research ethics, authorship, originality, and publication-integrity requirements.
6. Disclose relevant conflicts of interest, funding, and other required statements.
7. Check the manuscript for language quality, accuracy, and completeness.

Authors should also review the journal's policies regarding plagiarism, duplicate publication, copyright, and manuscript withdrawal.

Our Commitment to Continuous Journal Development

CRCSCJ aims to improve its publishing services and strengthen its position within the international cardiovascular research community. Our development priorities include improving article metadata and online discoverability,

expanding our editorial network, enhancing digital publishing standards, and encouraging contributions from a wider range of geographical regions.

We also aim to pursue eligibility for relevant scholarly indexing and discovery services as the journal develops and meets their respective requirements. Indexing decisions are made independently by each service and cannot be guaranteed.

These initiatives reflect our commitment to responsible publishing, long-term development, and the dissemination of clinically valuable cardiovascular knowledge.

Article Processing Charges and Waiver Information

Applicable article processing charges, discounts, and waiver opportunities are communicated through the journal's official policies or directly by the editorial office. Authors should confirm the applicable fee and any waiver eligibility before proceeding with publication.

Where a full or partial waiver is offered, the relevant terms and conditions will apply. Editorial decisions remain based on scientific quality, relevance, ethics, and the journal's review process.

Submit Your Manuscript

Authors are requested to submit their manuscript by using Online Manuscript Submission Portal: <https://www.casereportsincardiology.org/submit.html> (or) also invited to submit through the Journal E-mail Id: editor@casereportsincardiology.org.
