

Case Reports in Cardiovascular Pharmacology is a dedicated section of our journal that publishes high-quality, peer-reviewed clinical case reports focusing on the pharmacological management of cardiovascular diseases. This section emphasizes real-world clinical experiences related to drug therapy, adverse drug reactions, drug–drug interactions, and individualized pharmacological decision-making in cardiovascular care.

The aim of this section is to enhance understanding of cardiovascular drug efficacy, safety, and optimization, particularly in complex or high-risk patient populations.

Scope of the Section

This section welcomes case reports covering, but not limited to, the following areas:

- Pharmacological management of cardiovascular diseases
- Antiplatelet, anticoagulant, and thrombolytic therapies
- Antiarrhythmic and heart failure pharmacotherapy
- Antihypertensive and lipid-lowering agents
- Drug–drug and drug–disease interactions in cardiology
- Adverse cardiovascular drug reactions and toxicity
- Novel or off-label use of cardiovascular medications
- Pharmacogenomics and personalized cardiovascular therapy
- Polypharmacy and medication optimization
- Cardiovascular effects of non-cardiac drugs

Article Types Accepted

- Clinical case reports
- Drug safety and adverse reaction case reports
- Therapeutic decision-making case studies
- Pharmacology-focused cardiovascular cases
- Image-supported or ECG-based pharmacological cases

Peer Review and Ethics

All submissions undergo a comprehensive editorial screening and peer-review process to ensure scientific accuracy, clinical relevance, and educational value. Authors must adhere to international ethical standards, including informed patient consent and disclosure of drug-related information.

Educational and Clinical Value

This section is intended to benefit:

- Cardiologists and clinical pharmacologists
- Internists and hospital physicians
- Cardiology and pharmacology trainees
- Researchers in cardiovascular drug development
- Healthcare professionals involved in medication management

Manuscript Submission

Authors are requested to submit their manuscript by using Online Manuscript Submission Portal: <https://www.casereportsincardiology.org/submit.html> (or) also invited to submit through the Journal E-mail Id: editor@casereportsincardiology.org.
