

**Case Reports in Cardiovascular Diabetology** is a specialized section of our journal dedicated to publishing high-quality, peer-reviewed clinical case reports that explore the complex interplay between diabetes mellitus and cardiovascular disease. This section aims to highlight real-world clinical experiences that improve understanding of pathophysiology, risk stratification, diagnostic challenges, and therapeutic decision-making in patients with diabetes-associated cardiovascular conditions.

The section provides a platform for clinicians to share rare presentations, novel treatment strategies, and multidisciplinary management approaches relevant to cardiovascular complications in diabetic patients.

#### Scope of the Section

This section welcomes case reports addressing, but not limited to, the following areas:

- Cardiovascular complications of diabetes mellitus
- Diabetic cardiomyopathy
- Coronary artery disease in diabetic patients
- Acute coronary syndromes with metabolic comorbidities
- Heart failure associated with diabetes
- Diabetic dyslipidemia and hypertension
- Vascular and endothelial dysfunction
- Atherosclerosis and microvascular disease
- Cardio-renal-metabolic syndromes
- Effects of antidiabetic therapies on cardiovascular outcomes
- Novel diagnostic or imaging findings in cardiovascular diabetology

#### Article Types Accepted

- Clinical case reports
- Therapeutic and management-focused case studies
- Rare or unusual cardiovascular presentations in diabetes
- Drug-related cardiovascular effects in diabetic patients
- Image-based cardiovascular case reports

#### Peer Review and Ethics

All submissions undergo a thorough editorial assessment and peer-review process to ensure scientific integrity, clinical relevance, and educational merit. Authors are required to follow international ethical standards, including informed patient consent and appropriate institutional approvals.

#### Educational and Clinical Value

This section serves as a valuable resource for:

- Cardiologists and diabetologists
- Endocrinologists and internists
- Cardiology and endocrinology trainees
- Researchers in cardio-metabolic medicine
- Healthcare professionals involved in integrated diabetes care

#### Manuscript Submission

Authors are requested to submit their manuscript by using Online Manuscript Submission Portal: <https://www.casereportsincardiology.org/submit.html> (or) also invited to submit through the Journal E-mail Id: [editor@casereportsincardiology.org](mailto:editor@casereportsincardiology.org).
