

## **Advanced Heart Failure Device Case Reports**

Advanced heart failure often requires specialized device-based therapies to improve cardiac function, reduce hospitalization, and enhance patient survival. **Case Reports and Case Series in Cardiology Journal** welcomes the submission of **advanced heart failure device case reports and case series** that provide important clinical insights into the use of cardiac devices in complex and critically ill patients.

This dedicated section focuses on clinically significant cases involving **implantable cardioverter defibrillators (ICD), cardiac resynchronization therapy (CRT), left ventricular assist devices (LVAD), extracorporeal membrane oxygenation (ECMO), and remote monitoring systems** used in advanced heart failure management.

We invite manuscripts covering:

- Cardiac resynchronization therapy (CRT) case reports
- Implantable cardioverter defibrillator (ICD) cases
- Left ventricular assist device (LVAD) case series
- ECMO in advanced heart failure
- Mechanical circulatory support device cases
- Remote monitoring device case reports
- Advanced heart failure with device complications
- Device-related infection and management cases
- Device failure and replacement case reports
- Post-device implantation outcomes
- Rare device-associated clinical scenarios
- Long-term follow-up case series

At **Case Reports and Case Series in Cardiology Journal**, we encourage authors to submit rare, educational, and outcome-based device management cases that contribute to better treatment strategies in advanced heart failure care.

## **Why Publish With Us?**

- Rapid peer-review process
- DOI allocation for every article
- International editorial support
- Global visibility
- Ideal platform for advanced cardiology device case reports

## **Manuscript Submission**

Authors are requested to submit their manuscript by using Online Manuscript Submission

Portal: <https://www.casereportsincardiology.org/submit.html> (or) also invited to submit through the Journal

E-mail Id: [editor@casereportsincardiology.org](mailto:editor@casereportsincardiology.org).
